- Property with privacy
- Shopping area nearby
- Thermal bath nearby

In Rezi, the property with a unique panorama of Hévíz is for sale. The house is situated on a large, well-maintained plot in a quiet cul-de-sac with asphalt coverage. The property consists of 2 separate apartments that can even be opened up together if desired. A wine cellar, covered carport, garage, and a modern wooden house in the garden are also part of the property. The Aqua Safe drinking water osmosis system is an excellent solution for ensuring clean and healthy drinking water. The osmosis system effectively removes impurities, heavy metals, and other harmful substances from the water, providing safe drinking water for the family. Additionally, the camera surveillance increases the security of the home and allows for monitoring of events around the residence.
